

Six categories examined. Two look worth a conversation. Two look well bought.

Every indirect category your filing breaks out, compared against organizations of comparable size and type. Position is a starting point for a question — it is never a verdict on how you are run.

6
CATEGORIES EXAMINED
Every indirect line your filing breaks out, not a selection.

\$1.62M
ADDRESSABLE, AS FILED
10.3% of total revenue. The true base is larger.

3
ABOVE PEER MEDIAN
2 sit below it, and one has no comparable cohort.

1
EVIDENCE-SUPPORTED PRIORITY
Earned on a second evidence layer, not on size.

Evidence depth: four of nine layers carry something for this organization — filed, benchmark, derived and registry. Operating, retrieved, engagement and verified are empty, and are shown as empty rather than filled.

Where each category sits

CATEGORY	FILED	YOUR % OF REVENUE	PEER MEDIAN	PEERS	POSITION
Insurance	\$1.05M	6.67%	1.04%	10,953	Well above · 99th
Maintenance	\$264K	1.69%	1.00%	4,831	Above · 67th
Travel	\$105K	0.67%	0.37%	8,769	Above · 65th
Utilities	\$167K	1.06%	1.86%	434	Below · 26th
SaaS / Software	\$16K	0.10%	0.36%	1,155	Well below · 17th
Office Supplies	\$23K	—	—	—	No comparable cohort

Peer cohort: nonprofit organizations with revenue between \$7.8M and \$31.4M, the same filing methodology and the same denominator. Cohort size differs by category because not every organization breaks out every line.

Why insurance, and not simply because it is largest
It sits at the **99th percentile of 10,953 comparable filers** — six times the peer median as a share of revenue. It is also the one category where a second public filing tells us something a Form 990 cannot: your plan's Schedule A discloses **\$526K** of intermediary compensation across two relationships, covering 581 people. Two independent layers pointing at the same category is what earns it a page.

Where you appear to be buying well
Utilities sits at the 26th percentile and software at the 17th — both below the peer median as a share of revenue. On the public record these look competitively bought, and we would not start there. If a review happened, it should say so.
